CFA® Program – Passed Level I Exam

Feb 2025

PROFESSIONAL EXPERIENCE

Bank of Montreal (BMO)

Toronto, Canada

Wealth Management Risk Analyst – Internship

May 2025 – Aug 2025

- Delivered independent challenge (2LoD) on WM Risk Appetite & KRI/KRM governance over 5 business units: sampled +30 artifacts to validate policy alignment, change-control, and evidence-backed signoffs, strengthening control environment & audit-readiness.
- Confirmed 3-tier approvals (Sr Mgr. → Head WM Risk → WM CRO) and escalation with 1B/2LoD stakeholders prior to RAS and quarterly KRI submission to Enterprise Risk Committee; received formal recognition from WM Risk leadership for thoroughness
- Contributed to second-line risk review of Human Capital Factor US Equity ETF launch (ZHC, CBOE, \$1.1M net assets) by validating pre-trade controls, disclosure risk, and regulatory compliance across portfolio, legal, and distribution functions

Royal Bank of Canada (RBC)

Toronto, Canada

Wealth Management Risk Analyst – Internship

May 2024 – Aug 2024

- Assessed controls for 8 critical banking processes (e.g., lending rate calculator), identifying control owners, conducted stakeholder interviews, performed evidence-based sampling to evaluate design & operating effectiveness, reported issues to support remediation
- Mapped 25+ client onboarding issues against internal controls for high-net-worth accounts, focusing on FATCA compliance and Source of Funds verification; findings supported regulatory discussions and strengthened RBC's investment suitability framework

Yirifi.ai

Toronto, Canada

Research Analyst – Contract (Remote Part-Time)

Jul 2023 – Apr 2024

- Built a proprietary risk framework and conducted scenario analysis for 20+ crypto projects, scoring tokenomics, governance, and regulatory risks to guide investment decisions and product strategy
- Collaborated with leadership to present risk insights and market research to external partners and investors, contributing to business development efforts and capital allocation priorities

Yurei

Singapore

Investment Analyst – Internship

Jul 2022 – Aug 2022

- Conducted diligence on 12 early-stage crypto projects in gaming and infrastructure; authored 4 investment memos driving \$683K in capital deployment into Shrapnel, Analog, and XBorg—backed by SwissBorg and Zilliqa—flagship fund exit with 10x return
- Built bottoms-up frameworks to score opportunities across 8+ dimensions (tokenomics, vesting, cap tables, TAM, regulatory risk, team strength, market timing); modeled user adoption, token velocity, and incentive mechanics to recommend entry prices

PROJECTS

NVIDIA Equity Valuation

Jan 2025 – Apr 2025

- Built DCF (Gordon/Exit) + comps; ran base/bull/bear, WACC & sensitivity work to triangulate \$136/share (26.8% upside)
- Recommended \$2B internal expansion over \$7.7B Marvell acquisition based on NPV modeling, synergy review and comps analysis
- Presented findings in 15-minute team pitch deck with Q&A: industry dynamics, ESG, football field, enterprise value bridge

One-Month Forward Portfolio Simulations

Jan 2025 – Apr 2025

- Engineered a one-month-forward portfolio combining 90-day T-bills with McKesson (MCK) and CoStar Group (CSGP); applied 4 return estimators (Stats, Shrinkage, Wiener, Ito) to compute μ , σ , and ρ using 315 observations of daily price data
- Simulated outcomes & optimized weights; chose historical model (Sharpe 0.146; σ 9.03%), allocating 50.6% MCK / 49.4% CSGP

CERTIFICATIONS, SKILLS & INTERESTS

- **Certifications:** Merger Modeling and LBOs (Training The Street), Bloomberg Market Concepts
- **Skills:** Financial Modeling (DCF, LBO, comps), Portfolio Construction, Financial Statement Analysis, Excel & VBA, Macro & Sector Research, Bloomberg Terminal, Capital IQ, PitchBook, Python (Pandas, NumPy), Risk & Control Testing
- **Interests:** Music Production, DJing, Calisthenics, Muay Thai, Digital Assets, Content Creation
